

The Faculty of Medicine of the Goethe University Frankfurt am Main, Center of Dr. Senckenberg Anatomy, Institute of Anatomy I (Clinical Neuroanatomy) (Chairman: Prof. Dr. Thomas Deller), invites applications for the following position as civil servant or public employee starting as soon as possible:

Professorship (W2) in Anatomy

The professorship is intended to strengthen research in the field of neuronal adaptation and homeostasis. You will have a scientific focus on neuronal energy metabolism, mitochondrial function and organelle interaction and you will investigate these topics in the context of physiological and pathological neuronal adaptation processes. You will be expected to extend the methodological spectrum of Dr. Senckenberg Anatomy with modern molecular imaging methods at the organelle level, e.g. FRET, redox imaging, as well as calcium imaging. Teaching obligations are in German language, cover the full spectrum of anatomy for medical/dental students and require a strong enthusiasm. Additional experience in teaching in English language is advantageous. Furthermore, participation in the general responsibilities of the institute is obligatory, in particular taking over the responsibilities of a "Projektleiter Gentechnik". Integration into existing scientific foci of the Faculty of Medicine (neurosciences; oncology/immunology) is expected, as is a willingness to participate in existing or planned research networks of the Faculty of Medicine and Goethe University.

Prerequisites for application are a degree in human medicine or a biomedical oriented natural science, doctorate and habilitation or habilitation-equivalent achievements. You are expected to be scientifically visible, to have experience in leading a research group and to have successfully acquired third-party funding from the German Research Foundation (DFG).

The formal hiring requirements are defined in sections 67 and 68 of the Hessian Higher Education Act (Hessisches Hochschulgesetz).

Goethe University is an equal opportunity employer, committed to diversity and inclusion. In particular, we are welcoming applications by qualified women and people with a migrant background. At Goethe University, a special emphasis is placed on creating and sustaining a family-friendly work and research environment. Where applicants are otherwise equally qualified, preference is given to candidates with disabilities or equivalent. The same applies to women in fields in which they are under-represented.

To apply, please submit your application including a CV, a list of publications, an overview of your research and teaching activities, third-party funding as well as transcripts and a selection of recent course evaluations online at <https://berufungsportal.uni-frankfurt.de> by 18 January 2023. If you have any questions, please contact Prof. Dr. Thomas Deller.
