

FRIEDRICH-MERZ PROFESSORSHIP 2013

MEMBRANE KINESIS

SHAPING AND TRANSPORT OF CELL MEMBRANES

Dr. Jennifer Lippincott-Schwartz, Bethesda

October 20 – 24, 2013

STUDENT LECTURE

Looking under the hood of cells
through imaging

Monday 21.10.13 | 12.00–13.00 h
Lecture Hall H5, Otto-Stern-Zentrum
Campus Riedberg

INTERNATIONAL SYMPOSIUM »MEMBRANE KINESIS –
SHAPING AND TRANSPORT OF CELL MEMBRANES«

KEYNOTE OPENING LECTURE

Insights into HIV viral assembly and
membrane abscission using super
resolution microscopy

Tuesday 22.10.13 | 9.00–18.00 h
Lecture Hall B1, Biocenter
Campus Riedberg

STUDENT LECTURE

Navigating the cellular landscape with
new optical probes, imaging strategies and
technical innovations

Wednesday 23.10.13 | 10.00–11.00 h
Interimshörsaal, Haus 61, Sandhöferallee
Medical Campus Niederrad

NEW HORIZON LECTURE

Mitochondria, metabolism and cell cycle
control: an imaging perspective

Wednesday 23.10.13 | 17:30 – 19:00 h
Paul-Ehrlich Lecture Hall, Haus 22, Theodor-Stern-Kai 7
Medical Campus Niederrad
