

A smiling man with grey hair, wearing a blue and white striped shirt, is the central focus of the image. He is looking slightly to the right of the camera. In the background, several students are seated at desks, some looking towards the camera and others looking away. The setting appears to be a classroom or a school environment. A large green rectangular box is overlaid on the right side of the image, containing white text.

DreamSpark Overview

for Educators

Microsoft
DreamSpark

Get tools to help your students **get ahead**

We know first-hand the power of a student's ideas.

That's why we created DreamSpark, to give ambitious students a break and help kick-start their careers.

DreamSpark delivers the top developer tools used by the pros—*at no charge*—to design and build next-generation games and apps for Xbox Live/360, Kinect, Windows and Windows Phone.

Be the educator who exposes your students to the new technologies that help them achieve their full potential.

DreamSpark: Get the tools to help your students get ahead

Every educator, student and school lab can use DreamSpark for learning and teaching with the best professional-level design and development tools—**at low cost to schools and no cost to students.**

Developer & Design Tools

All Students, Educators, Institutions

DreamSpark puts all the power and creative potential of Microsoft development software in your hands with student app contests, coding camps, tutorials, expert help and free resources to build and publish their first Windows app.

Come build the future

Microsoft is now leading the rest with cutting-edge tech in Kinect and Xbox Games and with flat, user-centric design on the Windows OS and Windows Phone

The Windows Store is a wide-open field that isn't already overcrowded, like a lot of other app stores

Here is how to get professional tools

Sign in* to your department's DreamSpark WebStore and start downloading software today!
